Document 87/1

FAO/UNDP Regional Fishery Support Programme

TABLE of CONTENTS

I. Introduction	iii
II. Location of reference	v
III. References listed alphabetically by author	1
IV. References listed by subject	27
Aquaculture	27
Annual reports	27
Baitfish	28
Beche-de-mer	29
Boats and Boatbuilding.....	29
Bottomfish	30
Charts, Topography, and Boundaries	31
Computer	32
Coral	32
Crayfish-lobster.....	32
Fish handling and processing	33
Fish poisoning.....	33
General description and Fisheries development.....	34
Legal.....	37
Management.....	38
Marine mammals	38
Marketing	39
Oceanography	40
Policy.....	40
Pollution	41
Surveillance	41
Taxonomy	41
Traditional fishing.....	42
Training	44
Shellfish and Shells	45
Tuna (including Solomon Taiyo).....	46
Turtles and Crocodiles.....	51
Other	52

Introduction

The information contained in this document was compiled during January and February 1987. The 439 references contained herein were located by inspection of ten libraries and collections in the South Pacific region. Computer searches covering libraries in Asia, Europe, and North America were also carried out. In addition, Solomon Islands Fisheries Department files, both open and closed, were examined at four locations in Honiara.

The basic criterion for selection of material to be included in this bibliography was usefulness to the staff of the Fisheries Department. Both published and unpublished material have therefore been included. Any omissions or corrections should be brought to the attention of the Fisheries Department, Box G 24, Honiara, Solomon Islands.

To a large extent the encouragement of L. Clark of the Forum Fisheries Agency made this project possible. The co-operation of the Chief Fisheries Officer, D. Gibson, and his staff tremendously facilitated this work. Robert Maneira and Gideon Tiroba are to be thanked for their assistance in locating much of the material in Honiara.

Location of References

At the end of most reference entries in this document, an acronym appears in parentheses. These abbreviations correspond to the agencies and addresses listed below. In the case where an acronym is not given, the bibliographic information was obtained from another document. As this bibliography is primarily for the use of the Fisheries Department, the single location given is that which is most accessible to the staff.
